Product Safety Recall

Morton Smith-Dawe – ***Rocket Seed Potatoes***

Sold at Produce suppliers from September to Now

Not all Rocket seed will be affected

Defect: Some of the Rocket Seed sold will not grow, small eyes and sprouts may be seen but will not continue growing

Hazard: Hormone damage has occurred due to a very small amount of spray found in the seed due to human error/mix up. This is not enough contaminate any soil or be a hazard so replanting in the same spot is possible.

What to Do: Dispose of any affected seed and return to where you purchased for a credit
