

## Solo Ensuite

Model No. KC074-810

### PITCHING INSTRUCTIONS

#### Your tent includes:

- 8 x pegs
- 4 x ropes
- 2 x black FIBREGLASS poles (1490mm x 9.5mm)
- 4 x black STEEL poles (1980mm x 19mm)

1. Select a dry, level site and clear the ground of any sharp objects. Remove the tent from it's carry bag, untie fabric ties and unroll the tent.

2. Peg out the four corners at the base of the fabric, ensuring that it is pulled taut and square.

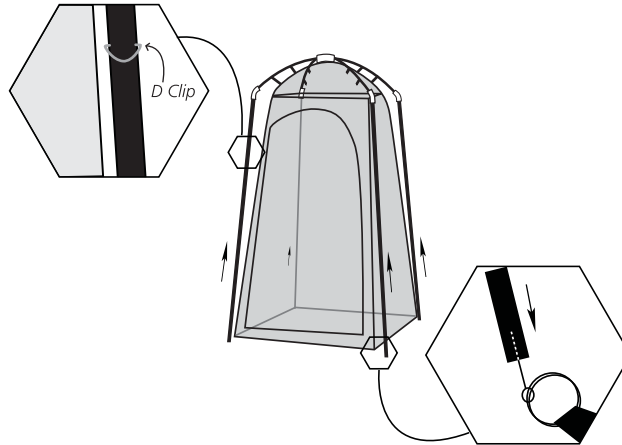

3. Assemble the black FIBREGLASS poles. One at a time, insert the FIBREGLASS poles through the webbing loop in the centre of the roof.

4. Insert each end of the FIBREGLASS poles into the small opening of the corresponding corner frame knuckles. Attach the speed clips to the corresponding poles. The top is now complete.

5. Assemble the black upright STEEL poles by interlocking the sections. Insert the end of each steel pole with the D-Clip into the remaining opening of the corner frame knuckles.
6. Connect the remaining ends of the STEEL poles onto the metal pins at the base of the tent.
7. Attach the speed clips onto the corresponding poles.

8. Carefully pull the fly into place over the top of the privy. Attach the fly by connecting the hooks on the corners of the fly to the D-Clips on the steel upright poles. Attach the velcro ties on the underside of the fly to the corresponding poles.
9. Place the clip-in floor inside the privy and smooth it out. Attach into the ensuite using the hooks in each corner.

10. Finally, peg out the remaining pegging points and rope out the guy ropes. Fine tune the fly and the guy ropes so the ensuite remains taut and positioned correctly.

#### REVERSE THE PROCEDURE TO LOWER THE ENSUITE

*NOTE: It is not recommended that you hang a solar shower in this ensuite due to the weight of the shower.*

#### PACKING INSTRUCTIONS

Layout the fly and fold to be the same width as the pole bag. Place the poles & pegs onto the fly and roll them inside so the fly is on the outside.

# TENT CARE INSTRUCTIONS

PLEASE READ ALL OF THE TENT CARE INFORMATION AND INSTRUCTIONS INCLUDED WITH THIS TENT BEFORE USING YOUR TENT FOR THE FIRST TIME.

1. Before you use your new tent, fully unpack and pitch it at home. It is important to familiarise yourself with the set up procedure and the various features.
2. Select a site that is level, clear of any sharp objects, is dry, will drain well if it rains and is protected from wind and other elements.
3. Keep clear of overhead power lines and trees when setting up your tent.
4. For best and easiest results, enlist the help of at least one other person to assist in pitching the tent.
5. Keep all flame and heat sources away from this tent fabric. Do not use open flame or gas appliances in or near your tent.
6. Do not use aerosol sprays or any solvent based products in or around your tent as these could damage the fabric or special coatings. These products include but are not limited to: repellent spray, hair sprays, alcohol, detergents, fly spray, petrol, kerosene etc.
7. Please note, the warranty on this tent will be deemed void if the product is used for any purpose other than a **temporary, recreational** use shelter.
8. Handle the tent poles carefully. When unfolding and folding the tent poles, do not allow the shock cord to pull and snap the ends together. This can damage the poles ends and result in breakage when the pole is tensioned.
9. Especially in windy conditions, it is essential that you attach guy ropes and fasten them to the ground. We suggest you insert the

pegs into the ground at a 45° angle towards the tent, not straight down. Please note, your tent will not be covered under warranty if wind damage occurs.

10. Use all of the guy ropes and pegs included to ensure your tent is secure and to prevent damage to both yourself and the tent. Check guy ropes/pegs daily.
11. Ensure there is an adequate gap between the fly and inner tent to enable ventilation and to prevent condensation build up.
12. Hold the flaps up, when closing the doors, to take pressure off the zips. Ensure that the tent fabric is never over stretched, especially as this may cause problems with the internal doors.
13. To clean your tent, only ever use a soft sponge and warm water. DO NOT use excess force or other harsh cleaners to remove marks from tent.
14. Ensure the tent is completely dry and clean before storing away and ensure to store it in a dry environment.

## IMPORTANT:

1. Under certain conditions (cold weather, high humidity etc.) condensation may form on the inside of your tent fly. Condensation can occur for many reasons including vapour from your breath, perspiration, cooking nearby or wet clothing inside your tent. This does NOT mean your tent is leaking through the fabric. You can minimise condensation by opening windows and airing out your tent during the day and by removing any wet clothing/towels etc.
2. Try to avoid pitching your tent under trees as tree limbs, falling leaves, sap, bird droppings or excess water dripping from the trees can cause damage to the tent fabric and its special coatings resulting in leakage or discolouration.

3. Only remove the tent pegs by pulling on the peg itself. NEVER pull on the tent or the webbing loops to remove pegs as it could result in damage to the tent or personal injury.
4. DO NOT leave tent pitched for weeks at a time as extended exposure to the sun's ultraviolet rays can damage and/or cause it to discolour. Your tent will not be covered under warranty if you leave it up for many weeks at a time.
5. STORAGE:  
NEVER store your tent wet or dirty (even for short periods of time).  
NEVER store your pegs or poles inside your tent. Always use the separate bags they are supplied in.
6. You may want to insure your tent against loss or damage.

## WARRANTY INFORMATION

The warranty period for this tent is found on the packaging and full details are on the Kiwi Camping website - [www.kiwicamping.co.nz](http://www.kiwicamping.co.nz).

### Key points:

The original purchaser of this product is offered a warranty if during this time period the product fails due to a fault in either materials or workmanship. Service under this warranty is available by returning the product, with your proof of purchase, to where it was purchased. If after inspection it is determined that the product is defective, we will repair or replace it (at our discretion) free of charge. This warranty does not cover misuse, damage caused by accident, storm or wind damage, mildew, neglect, UV degradation and fair wear and tear. Please note, the warranty on this tent will be deemed void if the product is used for any purpose other than a temporary shelter. If the claim is not deemed a warranty or is outside it's warranty period, we can repair the product at a nominal cost.
